Polyurethane Arm Caps

Choosing a Compositum sharp-arm model? Add an optional arm cap for enhanced durability and arm protection. Its easy-to-clean surface is a perfect choice for healthcare and education use. Plus, caps can be quickly replaced.

Clean Out

Make clean-up a snap with this built-in feature. Open space at the back of the seat allows dirt and debris to fall through for easy maintenance—without detracting from the product's comfort or stylish appearance. It's another great idea for high-traffic healthcare and education spaces.

Proof that comfort, quality and sustainability can co-exist. The Compositum construction story.

IDEON's steel rail system forms a robust, durable understructure that withstands even the toughest environments. Our dymetrol suspension platform features high density foam with comfort and rebound in a low-profile cushion while streamlining material usage. The modular assembly makes it easy to replace components and extend the product's lifecycle.
